

DOUBLE SIDED STICKY TAPE APPLYING MODULE

SLRP-1800AP

The module is destined to unwind, cut to preset length and apply the tape to preset position on another wound material. Module works in automatic mode, operator sets parameters on the control panel.

Technical specification

Name of the machine: Double sided sticky tape applying module

Type designation: SLR-1800AP

Module dimensions (W-L-H): 2500-9700-2200 mm

Tape max. width/diameter: 60 mm/460 mm

Core inside diameter: 76 mm

Tape applying speed: max. 0,5 m/s

Constant tension control

Machine automatic operation

Module meets standards to be used in medical industry

Control system SIMATIC with touch screen (user settings, error messages, prescriptions,...)
